

January 17, 1980

LB 254, 471, 817-826

given to the counties I think in a very fair formula so therefore, it is as though they are not without some fund and these school taxes from those lands or the monies gained to them by leases also are distributed to the schools on a fair basis and to my good friend, Senator Vickers, I would remind him that the counties before have talked about this problem and they have not yet gone bankrupt in terms of building those roads and I don't think they are building that many. It is just in some very few cases and it really is not a severe financial handicap. I am saying that this body should reject the amendment to this bill. Thank you.

SPEAKER MARVEL: I guess I need to ask those who have been debating, do you want to pass over this bill or do you want to proceed? Senator Kahle.

SENATOR KAHLE: Mr. President, I ask unanimous consent first to pass over.

SPEAKER MARVEL: Okay, is there any objection? Okay, the bill is passed over. Now I will call to your attention the fact that the worksheet that you get from the Clerk's office every day contains bills on General File and also bills that are passed over. Those bills that are passed over will remain in that column until you take the initiative to request that it be taken out of there. So it may seem simple so far that we have confronted...well we are out of work as far as General File is concerned. We have confronted almost all of the bills that were laid over from one session to another but many of these were passed over and it will not be as easy as you might think to get back to these bills again. So I warn you that it has been easy this time. It won't necessarily be easy the second time. While the Clerk is reading some items into the record, anyone who may have a bill that they would like to bring up, keep it in mind and we will take it up as soon as we are through with the Clerk's business.

CLERK: Mr. President, Senator Nichol offers a reconsideration motion on 498. That will lay over.

Mr. President, Senator Venditte moves to withdraw LB 471. That will lay over.

Mr. President, new bills. (Read by title for the first time LB 817 - 826 as found on pages 317-318 of the Legislative Journal.)

SPEAKER MARVEL: Senator Warner. Underneath the North
